BUY YOUR GOODS AT HOME.

Many people "send away" from Reno to buy goods that they might much better buy at home. In many cases the articles ordered from San Francisco or elsewhere could be bought here at the same or a less cost. Then in buying at home one has the advantage of personal selection, also saving time and express charges. Much of the large sum paid for money orders here goes to build up retailers in other places. This is a bad state of things. Reno can never keep up first-class business houses by patronizing outside establishments.

An illustration of the folly of sending away for goods is afforded by the following example: A Reno man recently received from a retail cutlery establishment, in Toledo, Ohio, a pamphlet containing descriptions and prices of their stock in trade. In looking it over he saw a description of a razor strop of a peculiar pattern. It was just what he wanted. So he wrote for the article, enclosing a post-office order for 75 cents, the price advertised. In two weeks time he received the strop. It was a good one and worth the money. But since he has ascertained that a local dealer has exactly the same strop for sale at the same price. The purchaser could have procured what he wanted right here in Reno without any loss of time. The article was really cheaper here, because there was a commission of ten cents on the order.

The habit of sending away for things grows fast and fairly gets to be a vice at last. There are people in Reno who would sooner send to San Francisco for a nutmeg-grater than buy one at home. If anyone wants an article for common use, the chances are ten to one that it will be found for sale here. If not, any local dealer, if the article is in the class of goods in which he trades, will or should be glad to order. There are hundreds of books ordered from publishers or from San Francisco, that could be got as quickly and as cheaply through some local dealer. On the other hand, if local dealers would take pains to advertise and keep their business constantly before the public, there would be less importing done by their customers. The business men who advertise the most are usually those who complain the least of the evil above discussed.

THE SACK IN CALIFORNIA.

The Oakland Tribune gives the following interesting bit of news. It appears that Flood's sack was untied in the late election in California:

"We learn from good authority that J. C. Flood, the bonanza king, will be a candidate for United States Senator to succeed Newton Booth. Mr. Flood, it is reported, contributed more than any other ten men to carry California for Hancock, and to show their gratitude for his assistance, the Democratic members of the Legislature think of giving Mr. Flood the party nomination for Senator. He would then only lack ten votes of an election. If the Republican members are divided over rival candidates and get split sunder, many politicians seem to think that Mr. Flood can win the prize. His friends claim for him much sagacity and financial ability of a high order—qualities much needed in a Senator from California. It is very evident that the fight for the Senatorship is going to be a lively one."

THE BULLION TAX.

It appears that a strong effort will be made in the Legislature this winter to secure such a change in the Bullion Tax Act as will exempt from taxation slums, tailings, and ores whose gross yield does not exceed \$2½ per ton; also to exempt ninety per cent. of all ores yielding from \$12 to \$30 per ton. The Enterprise, the organ of the bonanza people, is advocating such an amendment to the law. What such a change means is thus tersely and happily stated by the Eureka Leader, whose editor, Mr. Hobart, ex-State Controller, is one of the best financiers in Nevada:

"Five thousand dollars per annum will more than cover all the relief that it will afford to all the other mining tax-payers in the State, while to the Bonanza Firm it means a relief of from \$75,000 to \$150,000 per annum. Of course, this must be added to the burdens borne by merchants, farmers, stock men and railroads in the State."

EXPERIMENTAL ARTESIAN WELLS.

The GAZETTE to-day republishes a valuable article from the Eureka Sentinel, calling attention to the vast importance of experimental deep artesian wells for the State of Nevada. This subject has been almost a hobby with the GAZETTE. It has repeatedly urged the sinking of wells in the Great Basin by private capitalists or by the Government. Let a flowing well once be obtained at a moderate depth in this section and a great future is assured. The possibilities of agriculture in Nevada are now limited by the amount of water in sight for irrigation. Deep down in the earth beneath us may be vast and inexhaustible natural reservoirs that need only to be tapped to gush forth unending streams of water sufficient to transform the whole desert region into productive lands. In these chances are the possibilities of vast wealth and a great population. The article from the Sentinel reviews the whole subject, and will repay a careful perusal. The success of deep artesian wells in Nevada would be of incalculably more importance than the development of bonanzas in the Comstock lode.

THE COMING ECLIPSES.

The people of the Pacific coast exclusively are to be favored with an eclipse of the moon on Dec. 16. At San Francisco the eclipse begins at 5:35 A. M., and is total at 6:44 A. M., the moon setting at 7:14 A. M., totally eclipsed. These figures are from the Triune Almanac. The eclipse should be visible at Reno. In looking for the phenomenon it should be borne in mind that our time is about ten minutes ahead of San Francisco's. The people of the Atlantic coast will have a sort of consolation eclipse on the morning of Dec. 31, when the sun will rise partially obscured by the moon, which satellite will attempt to edge in between us and the solar stove at that time. If the Boston, the Charleston and the Chicago folks will turn out early that morning, they will get a glimpse of the sun with a frown on his face.

EDITORIAL NOTES.

Henry Ward Beecher said this in his sermon last Sunday: "I tell you brethren, emphatically and undeniably, that the Calvinistic creed is hideous in its idea of Almighty God. In it God is made repulsive, despicable and dastardly in the extreme. None of the thousands of ministers believe a word of their orthodox theological training, which teaches that God is a merciless being, who brings millions of men into the earth only to send them to everlasting hell if they do not live up to the letter of their creed. If ministers of the Calvinistic creed profess a belief in their worth, they profess to a lie. If any minister does believe in the doctrines, he is some 'stiff' old lightning-rod man, who spends his life in his pulpit, and don't know his congregation, nor do his congregation know him."

We are glad to see that Senator Powning proposes to introduce in the Legislature this winter a bill for the creation of the office of Bank Commissioner. The measure was advocated in the GAZETTE some months ago. California's Bank Commissioners have done good service. Nevada needs a like institution. The duties of Bank Commissioner could be added to those of some one of the State officials whose burden of work is not already greater than he can bear. In the present financial condition of the State it is not advisable to appoint new officers with large salaries.

The trouble in Ireland is increasing. The disturbed districts are full of constables and soldiers, although the British Cabinet has resolved not to resort to coercive measures. More troops are about to leave England for Ireland. The Land-Leaguers make it very hard work for the landlords to gather their crops in some sections. The estate of one landlord was recently protected by a regiment of soldiers while his hired men gathered in the crops. There will be more broken heads in the island before the land question is settled.

A woman fell dead in New Haven, Conn., yesterday, when told that her husband was dying. The day before a Massachusetts woman poisoned her husband. There appears to be a great difference between wives in this world.

BY TELEGRAPH.

Mrs. Ralston vs. Sharon—Trial of Schroeder—Railroad Commissioners Bringing Suit Against the P. C. S. S. Co.

SAN FRANCISCO, Nov. 29. The action brought in the Superior Court by Lizzie F. Ralston against William Sharon for an accounting of the estate of William C. Ralston, as assignee of the estate, has been transferred to the United States Circuit Court, on the petition of defendant.

Sheriff Desmond to-day was cited to answer to a charge of wilful violation of duty in permitting young Kallach to leave the jail.

The trial of young Schroeder, for the murder of Dr. Lefevre, began at Oakland to-day. Great interest is manifested. A jury has been partly obtained to-day.

This morning Railroad Commissioners Stoneman, Cone and Beerstecher, after a private consultation with their attorneys, determined to bring suit against the Pacific Coast Steamship Company to determine whether or not the Commissioners have the right to regulate the charges of this steamship company. It is stated that the attorneys of the steamship company will sue out an injunction to restrain the Railroad Commissioners from interfering in any manner with their affairs.

No Match for a Locomotive.

PLEASANTON, Cal., Nov. 29. The east-bound overland passenger train struck a man in a buggy at a crossing about one mile west of this place. The buggy was completely demolished. The man was brought to this place by the train, but only lived about five minutes after the train arrived. From papers found on the body his name is Thomas Goodbody, and he hails from Gilroy, Cal.

The Total Presidential Vote.

NEW YORK, November 29. The Telegram says: Returns all in from every State show the total Presidential vote to be 9,192,595, divided as follows: Garfield, 4,439,415; Hancock, 4,436,014; Weaver, 305,729; Dow, 9,644; scattering, 1,793. It will be seen that the Republican and Democratic parties are about as equally divided as it is possible to have two great parties. Garfield beats Hancock by only 3,401.

Last week's Argonaut contained a capital story, by John C. Chalmers, of San Francisco, entitled "Tom's Quiet Friend." It is full of rich humor and is written in a style of rare strength and simplicity. The writer's name is rarely seen in the Argonaut. If that paper would choke off some of its wishy-washy contributors and retain a few such clever fellows as Chalmers, it might get an immense circulation.

Sarah Bernhardt plays in America for one-third of the gross receipts per night, but her share must not be less than \$500 for any performance. All her expenses are paid. Her manager made \$18,000 out of her first two weeks in New York. Sarony paid Miss Bernhardt \$1,500 for the exclusive right to make and sell her photographs.

The official count of California's vote gives an average majority of 64 for the Hancock electors over the Garfield electors. Terry (D) received 79,885 votes and Edgerton (R) 80,348. So California gives five electoral votes for Hancock and one Garfield.

Ex-County Treasurer Carrick of Storey has been indicted for embezzlement of public funds. He retained R. H. Tayler and Lindsay & Dickson to defend him.

The S. F. Golden Era has assumed the form and style of the Argonaut. It was established in 1852, and Rollin M. Daggett was one of its founders.

JOTTINCS.

—Caledonia is assessed 25 cents.
 —Stocks showed some improvement this morning.
 —R. Frazer of the Reno foundry went to San Francisco last night.
 —Needham advertises that he wants to buy second-hand furniture.
 —The C. P. road is crowded with freight, going both east and west.
 —Many carloads of redwood ties are going through for the Carson & Colorado.
 —H. Meyerstein was attached by the First National Bank to-day for \$1,500. Hewill resume business in a few days.
 —Is there another "cold wave" coming or did the worst of it pass over us this morning? The next time we may expect a regular "roller."
 —The finder of a book containing cuts of gravestones, and bearing the name of Aitken & Fish, Sacramento, will please return to this office or to Capt. Bragg.
 —No one need be glad to see the last of November. It has been a very pleasant month in this section, though in many other countries it is one of the worst in the year.
 —It is grand to stand in the sunshine of the valley, as one could yesterday, and watch the storm clouds break over the Sierra and fall in snow upon those far-off lofty heights.
 —Cold again this morning. The temperature at 7 o'clock was 17 above zero. A beautiful hoar frost covered the ground, its myriads of crystals sparkling with wonderful beauty in the light of the rising sun.
 —An advertisement in the 50-cent column calls upon "Mollie" to communicate her address to her friends and relieve them of much anxiety. Mollie is informed that letters from Savannah await her orders.
 —Two new engines went through last night from the East for the Sonora (Mexico) Railway. They were broad-gauge, running on their own wheels, and were marked respectively "Guaymas" and "Gen. Riva Palacio."
 —The foundation for the new school house on Virginia street, south of the river, has been laid and the frame will go up immediately. The site is on the east side of the street, near the summit of the hill, on the lot adjoining Mr. Tallman's.
 —Several deaths from pneumonia have occurred near Reno this season. Every one should be on his guard against it. There is in this climate a necessity for warm woolen underclothing in winter, such comfortable suits as may be seen every day in the window of the White House.

A Sagacious Dog.

Jas. H. McKay, a sheep man living four miles down the river, has a shepherd dog of wonderful intelligence. A flock of sheep is at any time safe in the dog's care. When the sheep are started out from the corral in the morning the dog takes charge of them, and drives them to the pasture several miles distant. Mr. McKay needs only to go to the pasture in the afternoon and start the sheep towards home. The dog brings in every sheep before dark, arriving long after his owner.

ARTESIAN WELLS.

How They Might Make Nevada a Rich and Populous State—History of Efforts to Get Legislation in the Matter.

The following interesting and valuable article is from the columns of the Eureka Sentinel:

For more than ten years I have urged the great, almost paramount importance of some public, systematic plan for sinking artesian wells in the interior deserts, and especially in the State of Nevada. My first effort was through Senator Mullan, of Nye county, in 1870, in the Legislature of the State, which proved a failure, the author and projector being considered insane on the subject, especially by a few scientists. Next I made an effort through Senators Nye and Stewart; then I tried Congressman Fitch, but with a like success, and not until through Congressman Kendall was any effort made in the way of public aid, and though he made a noble effort, and drew upon him the epithet of being the "Artesian Borer," failed, partly because of time, and being in the minority.

My next effort was through Mr. Wren, who, though thinking with me, said he would not have time during that session. At the last session of Congress, some member, I think from Colorado, introduced a bill which was referred to a committee, where it is likely sleeping, since those who live in countries where the rains are bounteous can never see the importance of the measure as we do who inhabit these barren waste deserts.

Some years since a law was enacted for Arkansas, but made applicable to other States, known as the Swamp and Overflowed Land Act, the object being a system for reclaiming marshy and swampy lands, believed to be the most valuable of all others if reclaimed, as well as rendering sickly districts free from malarious diseases—a measure that has been approved by the entire people. Now, we of the interior deserts, the death valley of the American Continent, present claims of no less importance, and ask that Congress will aid by lands or money, or both, in some way to fully demonstrate the practicability of getting an abundance of water by sinking artesian wells in our unsightly and worthless deserts. It has been fully proven that the interior deserts are as productive as any lands, hardly excepting the Mississippi bottoms, provided water for irrigation can be obtained. It is my opinion that an abundance can be had at less than 500 feet in depth, which, if successful, would bring into market many millions of acres that otherwise will ever remain absolutely worthless.

A Watch's Wonderful Work.

William Goeggel, the popular jeweler, furnishes the GAZETTE with the following interesting calculation: The balance wheel of a watch strikes five vibrations per second; 300 per minute; 18,000 per hour; 432,000 per day; 137,784,700 per year (365d., 5h., 49m.). If a watch were kept going for a century, its balance wheel would vibrate 1,778,470,000 times. To give the reader an approximate idea of this astounding number, it may be said that a milliard (1,000,000,000) of minutes has not yet passed since the commencement of the Christian era.

Close of the Catholic Fair.

The Fair for the benefit of Mt. St. Mary's Academy closed in the Pavilion last night. The receipts have been small, little more than covering expenses. It seems to have been a mistake to hold it in the pavilion. Had it been held in the theatre a much larger attendance could have been secured. The pavilion is cold and cheerless at this season, and the efforts to warm it were dismal failures. It looks funny to see a man dandied with an ulster on. Last night the attendance was rather slim. The young people enjoyed a good dance, the Reno Brass Band having kindly volunteered for the occasion.

The Chautauqua Circle.

The Chautauqua Literary and Scientific Circle will hereafter meet on Friday evenings. The next meeting will be at Mr. Leete's house. The Reno Circle has a membership of eighteen. The Chautauqua membership throughout the United States has reached 20,000 in two years. The local branch bids fair to become a flourishing institution in time. The meetings are full of interest. The reading done by the members during the week in accordance with the prescribed course is thoroughly discussed at each meeting. Rev. Mr. McKelvey takes a warm interest in the society, and will be glad to explain its aims and methods to all who apply for information.

The Carson & Colorado.

Seven miles of the Carson & Colorado railroad have been built. A trip from Mound House to Dayton, six miles, was made in fifteen minutes. The road will be completed this winter as far as Hawthorne, where it will connect with the Bodie toll road. Tracklaying will go forward at the rate of a mile and a half a day.

NEVADA'S CENSUS.

A Total Population of 60,000. The Official Returns all in at Last.

Jackson Ferguson, Supervisor of the Census for the State of Nevada, accompanied by R. R. Brouner, a special U. S. Census Agent from Washington, arrived in Reno last evening. Mr. Ferguson informed a GAZETTE reporter that the official returns of the census of Nevada had been completed. The last folio was made up at Wadsworth yesterday, on his way here. The law required the census to be completed in June last. A complete census was in that month obtained of every county in the State except Humboldt and Lincoln. Returns from Union, Golconda and Mt. Rose division of Humboldt, and from two divisions of Lincoln county were wanting. Vexatious delays have occurred in gathering and completing the returns from these two counties.

Mr. Ferguson had not access to his books last evening. He was, therefore, unable to give the exact figures of the census. He stated, however, that the total population of the State is very close to 60,000—not more than 200 above or below those figures. The returns show a general gain throughout the State over the last census. It was expected that Storey county would show a great falling off, but its present population is between 16,000 and 17,000, an increase of about 4,500 over its population in 1870. The exact official figures of the census of the State will appear in a few days.

Mr. Ferguson thinks that the enumerators in Nevada did not receive sufficient compensation. Their pay was only \$6 per day. In some instances it had cost them \$4 per day, for a number of days at a time, for horse hire. The cause of the long delay in getting returns from Humboldt and Lincoln counties was partly the insufficient pay. Several enumerators abandoned their work before it was half completed.

Mr. Ferguson and Mr. Brouner went to Virginia this morning on business connected with the census. Mr. Brouner goes to San Francisco in a day or two.

The Wales Con. Fire.

Superintendent Griffith of the Wales Con. mine went west last night. He was interviewed by a GAZETTE reporter. The late fire started in the blacksmith shop at the south end of the hoisting-works building. The wind was from the south, and the flames were driven through the building towards the shaft. The frame work soon went, and the shaves fell into the shaft, doing considerable damage. All the machinery was destroyed. There were some men working in a winze 400 feet below the surface. They came up on a windlass rigged up by Mr. Griffith as soon as possible after the fire started to a tunnel 60 feet away from the surface, through which they escaped. The most intense excitement prevailed until the men came out. The mine was very dry and the shaft very well timbered, and every one thought it would burn out. It was saved by pouring water from a large tank down it. Over 700 gallons were used. Mr. Griffith is on his way to San Francisco to make preparations for reconstructing the works. Men are at work clearing up the debris.

An Opinion From The Outside on the Future of Reno.

The Elko Post thus prophesies: "Work will soon be commenced upon a new railroad (narrow gauge) to extend between Reno and the Oregon coast. Great things are expected for Reno when the road is completed. There is no reason why the pretty town on the banks of the Truckee should not become a large and flourishing city. It can never become so, however, unless capital goes in there and utilizes its magnificent water power in manufacturing enterprises. The agricultural, grazing and mining country around Reno would not support a large population there. The Comstock absorbs all the agricultural products that can be produced. Reno itself could use them were its own people producing something which would bring money in. Once the road north is completed and the grain, vegetables, etc., of Oregon can be laid down at Virginia and Reno for much less than they can be produced at home. Consequently, unless the Renos engage extensively in manufacturing enterprises, the Oregon road will not prove an unmixed blessing to the ambitious little Nevada town."

The Bearer of Nevada's Three Votes.

Major Dennis, editor of the Tuscarora Times Review, and one of the Presidential Electors for Nevada, went to Virginia this morning. The Major will represent Nevada's vote in the Electoral College. He goes to Washington in a few days.

Nevada & Oregon R. R.

A meeting of the Directors of the Nevada & Oregon will be held tomorrow morning. It is expected that the work of construction will be commenced on the day following.

THE PISTOL AGAIN.

Peter Dalton Takes a Shot at A. Nadon This Morning—No One Hurt—Dalton Up For Examination.

Peter Dalton, the restauranter, had an altercation with A. Nadon, the blacksmith, this morning. After some words had passed, Dalton drew a pistol, and in the struggle that ensued a shot was discharged which went very close to Nadon's head but did no harm. The encounter took place in front of the City Hotel on Virginia street, north of the railroad track. Dalton appeared for examination in the Justice's Court at 2 P. M., on a charge of assault with intent to kill. Nadon was the first witness called for the prosecution. He testified substantially as follows:

On my way to breakfast this morning I met Peter Dalton on Demer's corner. He spoke to me and I told him I wanted nothing to do with him. I then went to breakfast. On my way back, Dalton came out of the bar-room of the City Hotel and asked me what business I had to insult his wife. I told him that was not so and to shut his mouth; he then pulled his pistol out and I struck his arm and the pistol fell to the ground; we both tried to pick it up and he got it. I threw him down in the struggle; he held the pistol in both hands pointed towards my face; I tried to take it from him and he let one shot come; then I struck him and some one came and helped me take the pistol from him; the ball went by my head and through the balcony overhead.

The examination was still in progress when the GAZETTE went to press.

Vacant Places In the dental ranks will never occur if you are particular with your teeth, and cleanse them every day with that famous tooth-wash, SOZODONT. From youth to old age it will keep the enamel spotless and unimpaired. The teeth of persons who use SOZODONT have a pearl like whiteness, and the gums a rosy hue, while the breath is purified and rendered sweet and fragrant. It is composed of rare antiseptic herbs and is entirely free from the objectionable and injurious ingredients of Tooth Pastes, etc. nov1-1m

Our Exports. It is certainly gratifying to all true Americans to know that of late years our exports have largely exceeded our imports, not alone in such staple articles as wheat and beef, but in almost every branch of industry. Ten years ago nearly all the perfumery and toilet articles used in this country were imported from Europe; to-day we not only manufacture for ourselves, but are large exporters to South America, China, Japan, and the Colonies. The immense growth of this particular industry on the Pacific Coast is simply astonishing. Slaven, who is one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by Osburn & Shoemaker. oct12

TALK IS CHEAP,

And So Are FINE Clothing, BOOTS, SHOES, HATS, GENTLEMEN'S AND BOYS FINE FURNISHING GOODS.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.

LEGAL.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District, County of Nevada, in and for the County of Washoe.

The State of Nevada sends to Mary Jane Hall, Greeting: You are hereby required to appear in an action commenced against you as defendant by S. C. Hall, as plaintiff, in the district court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of divorce against the defendant and in favor of the plaintiff. The complaint alleges that the plaintiff and defendant were married at Hooksett, in the State of New Hampshire, A. D. 1884, and lived and cohabited together until on or about the 26th day of August, A. D. 1887. That plaintiff was a true and faithful husband. That on the 28th day of August, A. D. 1872, at Reno, Nevada, defendant left plaintiff's bed and board and has ever since said time abandoned and refused to live with plaintiff, and has gone to the State of Massachusetts, deserting and refusing to cohabit with plaintiff, all of which will more fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the court for the relief demanded.

In testimony whereof, I, MARK F. PARKER, Clerk of said court, have hereunto set my hand and affixed the seal of said court, this 12th day of November, A. D. 1889.

MARK F. PARKER, Clerk of the district of the Second Judicial District of Nevada, in and for Washoe county.

Notice.

IN THE DISTRICT COURT OF THE Second Judicial District, County of Washoe, State of Nevada. In the matter of the estate of Nancy L. Wheat, deceased. Order to show cause why order of sale of real estate should not be made.

L. C. Stelger, the Administratrix, and W. N. Steiger, the Administrator of the estate of Nancy L. Wheat, deceased, having filed their petition herein, duly verified, praying for an order of sale of the real estate of said deceased, for the purposes therein set forth, it is therefore ordered that all persons interested in the estate of said deceased appear before the said District Court on the 15th day of December, at 10 o'clock in the forenoon of said day, at the Court House in said County of Washoe, to show cause why an order should not be granted to the said Administratrix and Administrator to sell so much of the real estate of said deceased, as Nancy L. Wheat, as shall be necessary, to pay all of said real estate.

S. D. KING, Dist. Judge.
Dated November 17, 1889, 4w

DR. SPINNEY

NO. 11 KEARNEY STREET,

San Francisco, Cal.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM

the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever aid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the case will be of a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and analysis of \$5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
